Education

Thapar Institute of Engineering and Technology

Bachelor of Engineering – Computer Science CGPA : 8.56

Aug 2024 – May 2028

Patiala, Punjab

Tagore Public School

Class XII – 92.6%

Jul 2022 – Mar 2024

Jaipur, Rajasthan

Experience

Alpine Healthcare

Software Engineer Intern

June 2026 – July 2026

Jaipur, Rajasthan

- Partnered with business stakeholders to translate wholesale-medicine operational requirements into a working inventory and order management solution, from discovery through delivery.
- Designed a normalized (3NF) database schema supporting batch traceability, supplier relationships, and order lifecycle tracking – improving operational visibility and reporting accuracy.
- Built KPI dashboards and AI-driven demand forecasting models, insights that supported data-driven inventory planning decisions.

Thapar Food Festival (TFF)

Frontend Developer

April 2025

Thapar University

- Collaborated in a cross-functional team of 5–6 to design and ship the official festival website using React.js, Three.js, Tailwind CSS, and Git.
- Built responsive 3D interfaces and optimized rendering performance for a seamless cross-device experience.

Projects

PharmaFlow ERP

Next.js, React.js, Node.js, Express.js, PostgreSQL, Tailwind CSS

2026

Personal Project

- Architected a full-stack pharmaceutical ERP with 10+ modules spanning inventory, sales, procurement, CRM, billing, and compliance – mirroring the kind of end-to-end enterprise solution architecture CSEs scope for clients.
- Implemented AI-based demand forecasting and inventory optimization, backed by dashboards tracking 15+ business KPIs.
- Documented module workflows and system design, translating technical architecture into clear stakeholder-facing explanations.

Sahayak PFMS

Next.js, Node.js, Python, FastAPI, MongoDB, Apache Kafka

Dec 2025 – Jan 2026

- Built a FastAPI-based ML pipeline for real-time fraud detection with explainable AI scoring, improving transparency for risk-monitoring decisions.
- Developed financial-monitoring dashboards surfacing real-time transaction insights for operational stakeholders.

Technical Skills

Business & Productivity Tools: Microsoft PowerPoint, Microsoft Excel, Microsoft Word, Git

Data Analytics: Python, SQL, KPI Reporting, Data Visualization, Dashboarding

Programming Languages: Python, SQL, JavaScript, C++, C

Frameworks & Technologies: React.js, Next.js, Node.js, FastAPI, REST APIs

Databases: PostgreSQL, MongoDB

Core Concepts: Data Structures, DBMS, Operating Systems, Computer Networks, Cloud & AI, Process Improvement

Achievements

- HACK4DELHI 2026 Hackathon Finalist — Top **20** of 1,200+ teams (5,000+ participants).
- Awarded a **2.3L** merit-based scholarship for academic excellence.
- Solved **300+** DSA problems on LeetCode, GeeksforGeeks, and Codeforces.
- Co-organized 4+ technical workshops and hackathons, creating and delivering presentations and demos for **1000+** participants – direct experience in technical enablement and knowledge sharing.
